CALL OF THE PROTESTING REFUGEES IN HESSEN:

Many refugees are in a difficult mental situation because of their fear of police and deportation caused by the Dublin regulation. But we, the refugees, we are innocent! Police and politics push us to become criminals, for example when we resist and defend ourselves against our deportation in police stations and airplanes. But we are no criminals and no terrorists!

We didn't expect these things to happen to helpless refugees in so-called democratic countries! Deportation must stop!

We demand that nobody is transported against his or her will!

Come with us to the Frankfurt Airport, to protest against the big and hidden deportation business! We have to confront the airport management, airlines and police with their responsibility, because

WE ARE HERE TO STAY!
