

**Stop Deportations! Right to Stay for everybody!**  
**Saturday, 10.12.2016, 2.00 p.m.**  
**Frankfurt Airport, Terminal 1, Departure B**

**At the international day for human rights we will protest against deportations**

At the beginning of October 2016 the European Union and the government from Afghanistan signed a readmission agreement. The return of afghan asylum seekers, whose applications have been rejected and who are only tolerated (with „Duldung“), should be made easier. Even an extra deportation terminal was mentioned to be established at the airport in Kabul.

Many times we protested against deportations at the airport Frankfurt, loud and together. It was directed against so-called Dublin-deportations within Europe, for example to Italy, Hungary or Bulgaria. Or against deportations to „safe countries“ like Serbia or Macedonia. And also, if refugees and migrants decided in last minute to resist their deportation. Then they stood up inside the plane and we asked from outside the passengers of the same flight to intervene.

**All this protest remains necessary and we will continue as long as the injustice of deportation is not stopped.**

But that is only possible, if we come together and build solidarity. We unite together against the fear. Afghanistan is not safe. All persons, who will receive a negative decision, should be accompanied by many friends and together we will not accept, that anybody is deported against his or her will. Not to Afghanistan and not to any other country.

On 10th of December we come together with loud voices against deportations and for the right to stay. We will gather against the fear and for mutual strengthening - to struggle on a stronger level for the right to stay for all.

**We demand equal social rights and freedom of movement - for everybody.**
